On the buildings, all, which are frequent in ~~fach~~ **fuch** a country are often beautiful objects; the church and the ~~manñon~~ **manfion** are considerable; the farm-owl itself, if an advantageous function the chosen for it; if the ricks, and the baras, and the out-hoofous, are ranged with any edges to form that into groups,

With ~~fach~~ **fuch** opportunities of improvement, even to formation within field, and with advantages of profect into the country about, in a female farm may doubtledly be delightful. It will be particularly acmodities to the owner, if in be dude to his park or in garder; the objects which ultimately took him of his rank, impede a kind of confrontant; and he feels himelf relieved, by resting frontants from the fliplafore of East into the majority of a farm; it is more than a variety of fence; it is a temporary change of function in life, which has the theories of novelty, eife, and tranquility, to reconocuted it. A places, therefore, can hardly be deemed perfed, which is not provided with facts or retreat. But it is be the whole of the place, it forms inadequate to the manñon: a vifloor is disappointed; the milieu is disdisified, he is inaufilius diffungulhge, he is tennis; the milffes the appendages incidental to his feat and his structure; and it must at the Ministry of his grounds with the country about them. A payload is an ancient farm in a little down the common level; but eern thefe, if brought clop as the door, let the hole of a field, where it always appears to be neglected and naked. Some degree of polish and ornament is expected in his immediate extremism, and a gender, though it do not but a final cure, found the interpoted between the ~~manñion~~ **manñon** and any facies of farm.
